P: (202) 429-0020 x325

F: (202) 315-3758

## Background

Joseph Conte's practice includes all phases of patent preparation and prosecution. Mr. Conte has worked as a patent engineer at patent boutique, and a patent examiner at and the United States Patent and Trademark Office. Upon graduating from engineering school, Mr. Conte worked at a medical device startup. During his time at MIT, Mr. Conte was involved in a variety of research projects and internships involving robotic fish, petroleum engineering, and plasma space propulsion.
